1. Agenda Item: Website Update and Proposed Revisions - Ferdinand Meyer V

The FOHBC website is in need of updating with a ‘new look.’ Ferdinand Meyer noted that he was interested in overseeing the design and development of the new FOHBC Web Site. In the interest of time and efficiency, Ferdinand proposed that he would solely direct this project and take on full responsibility for the content and delivery. Ferdinand stated that the new web site would go-live by 05 June 2011 to coincide with the Memphis National Show. The design would be based on the work previously submitted by Mr. Meyer. Mr. Meyer further stated that he would oversee the web site for approximately three months after the go-live date in order to ensure that the site was being maintained correctly.

At a future date, a committee will be formed and made up of the major contributors to the website and magazine. This committee will oversee the continued effort. Ferdinand suggested a startup budget of $4,000.00, which will be used to hire a programmer and webmaster to develop highly technical areas of the site.

There was a brief discussion concerning the Virtual Museum and Ferdinand’s desire to “get moving” on the project. Ferdinand stated that he had requested the Virtual Museum be on the agenda and was concerned that it had not been included. Secretary Driskill spoke up and said the reason that he could not vote to fund the museum project is the huge start-up cost that was projected which did not include any specifics or evident way to recover the start-up investment, and, thereafter there would be significant costs to pay a webmaster/programmer to maintain and upkeep the site. Secretary Driskill asked Ferdinand to produce a prospectus with specific numbers on start up costs vs. revenue recovery because without that it would be difficult for the board to comfortably move forward, especially with the ball park figure in the first proposal of $75,000.00. Ferdinand stated that there are always challenges with any
large and complicated endeavor and stated that planning should still continue
including the development of funding sources etc.

President Bradberry tabled the discussion of the Virtual Museum at this time.

Action Taken:

President Bradberry proposed the motion to approve Ferdinand Meyer’s proposal to
be the sole administrator of the development of the new FOHBC website. Motion was
seconded by Bob Ferraro. Vote was unanimous approving the project. Ferdinand
Meyer will report periodically to President Bradberry and Board Members during this
3-month period. New software may be required.

Special Note:

Due to the previous action in Item #1 Secretary Driskill moved to withdraw the
motion for a Committee to be formed to oversee the development of a new FOHBC
Web Site. Motion to withdraw was accepted.

Wayne Lowry gave a report on the Memphis show and the status of the preparations.
Contracts are being printed and will be mailed out next week.

All items needed for the show have been covered except the local club's participation
and President Bradberry will handle that. The auctioneer is licensed and in
compliance with Tennessee state laws. President Bradberry said that someone from
the local Memphis show will be handling the consignments for the auction, including
procuring them and taking photographs for the auction booklet. Wayne said that the
consignment information was in the contract and will be available on the website.
Copies of the contract were made available at the FOHBC table in Baltimore.

3. Agenda Item: Expo 2012 Show Report-Wayne Lowry

Wayne Lowry reported on the progress of the 2012 Reno show. He said at this time,
everything was on target and in his opinion, it is a bit early to be doing too much on
that yet. Bob Ferraro stated that Richard Siri is currently working on the show. A
brief discussion ensued regarding distributing Reno show contracts before the
Memphis show. Wayne said that the contracts for Reno should not be distributed until
after the Memphis show.

Gene Bradberry said he had taken the initiative to print and collate 300 copies of the
contract to disseminate there in Baltimore at the FOHBC table.

Action Taken:

It was agreed that contracts will be ready in time to distribute at the Memphis show.

4. Agenda Item: Budget Committee Report - Sheldon Baugh
A Budget Committee for the FOHBC was formed to compose a proposed budget for next year using the recorded expenses and income from this past fiscal year. The budget committee was made up of four directors - Sheldon Baugh, who led the committee; John Pastor, Jim Berry and June Lowry.

Sheldon Baugh presented and gave details of the proposed budget to members present. He explained that to balance the budget, we can increase revenue or cut spending. He gave an example citing an increase in FOHBC memberships would help increase revenue.

During the discussion, June Lowry stated an additional expense of $450 may be needed for the software to enable Ferdinand, our webmaster and our editor to function uniformly. She also stated that the budget proposed the purchase of two licenses at $150 each, but realized that three would be needed, increasing the budgeted amount by $150. No action for authorization occurred.

Mike Newman, Treasurer, gave comments on balancing a budget. President Bradberry reviewed how investments have been able to provide for any deficits. Mike Newman said he thought that special projects and “special expenses,” i.e., website costs, should come out of our investment account rather that our income revenue.

Action Taken:

Sheldon Baugh moved that the Budget Committee report be accepted and the committee be dissolved as per by-laws. Vote was unanimous.

There are many, many articles available, but someone must take the initiative to follow through. He also suggested sending copies of Bottles and Extras to libraries for viewing.
