### Where there's a will there's a way to leave Donations to the FOHBC.

Did you know the Federation of Historical Bottle Collectors is a 501C(3) charitable organization? How does that affect you? It allows tax deductions for any and all donations to the FOHBC. You might also consider a bequest in your will to the FOHBC. This could be a certain amount of money or part or all of your bottle collection. The appraised value of your collection would be able to be deducted from your taxes. (This is not legal advice, please consult an attorney). The same type wording could be used for bequeathing your collection or part of it, however, before donating your collection (or part of it), you would need the collection appraised by a professional appraiser with knowledge of bottles and their market values. This is the amount that would be tax deductible. Thank you for considering the FOHBC in your donation plans.

### Article Submission Requirements:

All BOTTLES and EXTRAS articles or material need to be submitted on CD (preferable) or an email using a compressed (zipped) file. The file must be created by Microsoft Word, Publisher or Adobe N-Design so the editor does not have to retype the work. High-resolution digital images are our preferred format. Please submit digital images on a CD according to the instructions below. We will accept e-mail submissions only if the image resolution is acceptable. The e-mail or CDs must have only ONE subject per transmission to minimize confusion. Each image must be accompanied by a caption list or other identifying information. Professional-grade equipment is a must to achieve the size and quality image we require. The highest setting on the camera should be used for maximum resolution and file size. Only high quality images will be considered. Please do not send photographic prints or scans of images—the color and quality are generally not up to par compared with digital images or slides scanned by our imaging department. We will consider exceptions for photos that can't be easily found, such as older historical images. We rarely use slides anymore and prefer not to receive submissions of slides due to the time and liability involved in handling them.
